★ Required Information

Workplace Western Memorial > Clinical > Emergency Room	Job Type Per Diem
Staff Quantity 1	Profession-Specialty RN, ER
Start Date 2/14/2018	Assignment Duration 1 Day
Start Time 7:00 AM	End Time 7:00 PM
Status Filled	
End Date 2/14/2018	

📋 Requirements

No requirements specified.

📄 Details

Shift
Day

Our hospital is looking for a compassionate and quick thinking ER Nurse to join our emergency team. The successful candidate will be responsible for handling initial patient assessments, performing laboratory work, point of care testing and associated administrative tasks. The ER nurse will also collaborate with ER doctors on discharge plans and create outpatient instructions for each patient that is not admitted to the hospital. If you are a compassionate and knowledgeable caregiver with previous nursing experience, we encourage you to apply.

- Responsible for maintaining care standards in the emergency room
- Assist with checking in patients, doing triage work for doctors and generating initial insurance paperwork
- Work closely with doctors to keep patients and their family members updated on test results or treatment recommendations
- Maintain contact with laboratory personnel to report any initial lab findings back to the ER doctors
- Make arrangements for patients that are deemed to need care requiring them to be admitted to the hospital for one night or long

Provides professional nursing care to assigned patients in the intensive care unit. Performs various diagnostic tests, administers medications, and develops patient care plans in conjunction with other medical professionals. Assists physicians during examinations and procedures, operating and monitoring medical equipment as necessary. Observes patients' progress, records observations in patient medical record, and updates attending physician directly when necessary. Graduation from an approved nursing program required. Report to a manager or head of a unit/department. Requires a state license to practice. Certification and/or licensing required.

- Identify patients' age-specific needs and alter care plans as necessary to meet those needs.
- Provide post-mortem care.
- Perform approved therapeutic or diagnostic procedures based upon patients' clinical status.
- Evaluate patients' vital signs and laboratory data to determine emergency intervention needs.
- Administer blood and blood products, monitoring patients for signs and symptoms related to transfusion reactions.

The Mammography Technologist, under direct supervision, performs specialized examinations of the breast to help in the diagnosis and treatment of breast disease in women patients for our client facilities. Mammography Technologist may perform screening exams or diagnostic exams.

The Mammography Technologist is expected to practice safe procedures and adheres to radiation safety measures under the supervision of the Radiology supervisor or the Radiologist. Specific duties may include but are not limited to:

- Complete patient education regarding the exam
- Promote privacy for the patient
- Promote comfort for the patient
- Perform diagnostic or screening mammogram as ordered
- Prepares for and assists the Radiologist in the completion of intricate mammography examinations, including breast biopsies.
- Produce high quality films for the radiologist to evaluate
- Complete appropriate documentation
- Perform quality control functions related to mammography
- Assist in compilation and maintenance of statistical data
- Follow infection control and safety guidelines

J6754 - LPN, Oncology

HIDE DETAILS

Required Information

Workplace Mercy General > Clinical > Cancer Care Clinic	Job Type Per Diem	
Staff Quantity 1	Profession-Specialty LPN, Oncology	Status Apply
Start Date 2/16/2018	End Date 2/16/2018	

Requirements

No requirements specified.

Details

Shift Day	Meal Time (minutes) 30
---------------------	----------------------------------

The Licensed Practical Nurse (LPN) must be able to demonstrate the knowledge and skills necessary to provide care appropriate to the age of the patients served on the assigned unit. This individual must demonstrate knowledge of the principles of growth and development over the life span and possess the ability to collect data reflective of the patient's status. The LPN is to participate in the development, modification and implementation of the plan of care in accordance with standards in order to deliver efficient, effective and high quality patient care.

- Observes and cares for patients based on an established plan of care
- Communicates observations and the effect of nursing interventions to the RN based on information from the patient /family and observed patient responses
- Assist in planning for discharge within the anticipated LOS
- Establishes a therapeutic relationship with the patient and family
- Participates in patient/family teaching as delegated
- Collaborates with nursing colleagues and the interdisciplinary team

On Call

High Priority

Guaranteed

Shift **Meal Time (minutes)**

The Licensed Practical Nurse (LPN) must be able to demonstrate the knowledge and skills necessary to provide care appropriate to the age of the patients served on the assigned unit. This individual must demonstrate knowledge of the principles of growth and development over the life span and possess the ability to collect data reflective of the patient's status. The LPN is to participate in the development, modification and implementation of the plan of care in accordance with standards in order to deliver efficient, effective and high quality patient care.

- Observes and cares for patients based on an established plan of care
- Communicates observations and the effect of nursing interventions to the RN based on information from the patient /family and observed patient responses
- Assist in planning for discharge within the anticipated LOS
- Establishes a therapeutic relationship with the patient and family
- Participates in patient/family teaching as delegated
- Collaborates with nursing colleagues and the interdisciplinary team
